-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3 & 6 are rejected under 35 U.S.C. 102(b) as being anticipated by Rodriguez '476.

Rodriguez '476 discloses further embodiments from the earlier Rodriguez patent that may be read on the claims as amended. Note that a certified translation of the priority document would remove the 'bar' under 35 U.S.C. 102(b) but that the reference would still be applicable under 35 U.S.C. 102(e). Refer to fig. 5 of Rodriguez '476 which is described from col. 5, line 49 to col. 6, line 17 of his disclosure. An audio amp circuit is shown which includes switching transistors 510a, 510b which may be read as the amplification means of claim 1, power switch of claim 2 or plural switched transistors of claim 6. They are connected to a 12 volt supply which may be read as the power source voltage claimed. Then transformer 512 may be read as the voltage conversion means of claims 1 and 6 or the transformer of claim 2. Its output voltage is greater than its input voltage or the power source voltage (12 volts) as described at lines 11-15 of col. 6 of the reference, thereby meeting the limitations added to claims 1, 2 and 6 by the amendment. The limitations of claim 3 are met in the same manner as in the first Office action; no arguments specific to claim 3 have been presented.

Claims 4-5 allowed.

Rodriguez does not disclose the second, larger power source voltage connected to the transformer.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
